IMPROVEMENTS .- The commodious and tasteful dwelling of Rev. Dr. Dutton, at the East end of Main street, is almost completed. The masonry, by Messrs. Tutwiler; wood work, by Mr. Barney Lloyd; plastering, by Mr. C. F. Gallaher; roofing and spouting, by Messrs. McCurdy & Duke ; and painting, by Mr. Wm. Kimes, are all well executed, and reflect credit upon each of the different departments mentioned.

The house of Mr. Diehl, on George street, though at a stand-still at present on account of the weather, will, when completed, be one of the most attractive dwellings in town.

Mr. Julius C. Holmes has commenced operations on the old Ranm house on Main street now owned by Mr. Gustav Brown, and will in a few days transform it into a handsome glass front store room, designed for the occu pancy of Mr. L. Dinkle.

We understand it to be the intention of Mr. Joseph Goldsmith to put in a glass front and otherwise improve the Stewart property recently purchased by him.

"WHO BELLED THE BUZZARD!"-Is a question which is at this time excit ng the leepest interest in our neighboring county of Middlesex, a buzzard having appeared near Urbanna wearing a bell. This question seems likely to prove as faithful source of inquiry as the mysterious death of Cock Robin, or the question which more recently excited the curiosity of the civil zed world-"Who struck Billy Patterson ?" - Essec Gazette

This is probably the same bird that was belled by Mr. Charles J. Manuing, of this county, last year, and which was afterwards seen in Berkeley county.

COURT OF APPEALS .- In the Supreme Court of Appeals, on the 23d ult, Judge Berkshire delivered the opinion of the Court in the case of Geo. S. Bonham et al es. John G. NEW CARS FOR THE C. & O. R. R. - Within the last few days, we understand, a number of new cars have passed through this place, destined for the western terminus of the Chesapeake and Ohio Railroad, at Huntiagton, the business of that portion of the road having increased rapidly during the short time it has been in operation.

Lay, of Virginia, was in our town last week, and with Col. Chew, in a few hours insured policies to the amount of \$10,000.

ACCIDENT .- Mr. Jacob O. Tutwiler, whilst working at the Court-House, on Wednesday last, fell from the second to the first story - a distance of 17 or 18 feet. He was quite severely injured, though not seriously. That he was not killed is a marvel .- Free Press. We are glad to know that he is rapidly

NARROW ESCAPE. - Mr. George W. Eugle, of this county, narrowly escaped death a few days ago. Having felled a tree, he had been laboriously engaged lopping off the branches preparatory to sawing. Having, as he supposed, carefully propped it, and thinking it a favorable moment for a breathing spell, he seated himself upon the log. Suddenly it rolled upon him - Mr. Engle being saved from a fearful death by a knot or projection which stopped the log in its mad career before it had quite passed over his body. Though a good deal bruised, he is thankful matters are no worse, and that help was at hand for his speedy extrication from so perilous a position.

Shenandoah Valley Railroad.

The Clarke Courier of last week has the

following suggestive article :-The citizent of the upper Valley are in doubt about the construction of the Valley Rrilroad, and justly so, if the Baltimore Ga zette's information is true. With the lines of road extending from Virginia to Memphis in the hands of Col. Scott and Gen. Mahone, who have effected a union of interests, we cannot see what the Baltimore and Ohio Railroad is to accomplish by extending the Valley Railroad. We think it would be politic for the friends of the Valley road in Augusta and Rockbridge to turn their attention to the Shenandoah Valley railroad as the line most likely to be made.

We think it is now demonstrable that the Valley road will find its terminus at Staunton. It won't pay to encounter the heavy grades and deep cuts of Rockbridge, for the trade of that county. It won't pay to intersect the Virginia and Tennessee at Salem, with Scott to discriminate against her: and it won't pay any better to go to Lynchburg, to divide the business with the Orange and Alexandria Road, which is now run in the interest of Baltimore. Tom Scott stands at Staupton with his hand upon the throat of the Baltimore & Ohio Co., and it is a death grip so far as the trade of the south-west is concerned by the Valley Road. If Rockbridge wants a railroad, and wants it quek, she must transfer her subscription to the Shenandoah Valley Road. Her people may rely upon it, that this road will certainly be made to the south-west by some route, and Rockbridge can command it if she will bid .- Clarke Courier.

The following is a copy of a letter received by the Hon. A. R. Botler, of Shepherds-

Рительным, Feb. 22, 1872.

Hon. A. R. Boteler. DEAR SIR .- Yesterday I telegraphed Col. Walker that the work on the S. V. R. R., would be allotted on Friday, (to-morrow,)thanks to your having a Charlestown and a Charleston in your State, -that telegram did not come to hand. Our Arrangements are all complete. We will build the R. R. if you will only give us fair play. Let your people meet us, not as enemies, not as men who come among you to steal all we can lay our hands on. You have one of the first Valleys in the Union; you have a natural rout for the Rail which, for directness and cheapness Road cannot be surpassed. You have a business for a R. R, (yet undeveloped) which will make the ctock of the S. V. equal if not superior, in point of dividends, to any in the Union. Your County has lent her credit to the enterprise. Ere five years shall have passed the Stock of the Company will command a larger price than your County Bonds, and ere that time comes round, your farms will have doubled in value; why should any of the farmers demand entravagant damages? they are certainly the persons who are most to be benefited by the building of this road and are undoubtedly standing in their own light. I have thought what Col. Walker told me, you would rather like to he from me. We are in earnest, and the work, if not retarded by your people, will be pushed by us. With many thanks for the sketch sent me,

I am very respectfully
PHILIP GOLLINS. Supt. C. I. Co. Mr. Collins assures the editor of the Register, in a private letter, from Philadelphia, that the work of construction will be com-

menced within thirty days, Mr. Crumlish, the contractor for sections 16 to 25, inclusive, informs us that he will commence operation as soon as the ground becomes thawed out sufficient to permit working to advantage.

LOOK OUT FOR ROGUES .- On Sunday night last some one broke into the corn-crib of Mr. Jno. Printz, living on the Hawksbill, in this county, and appropriated to his own use two barrels or more of corn. People will have something to eat, and those who don't work for it, must resort to fashionable government strategy .- Page Courier

We learn from Mr. Jacob Tutwiler. that his corn house; in this town, was broken into a short time since, when the roome or rogues helped themselves.

Wood's Househole MAGAZINE.-This excellent and cheap Magazine for March has been received. Gail Hamilton is now the Editor-in-chief and for her services receives \$3,006 per annum. It is published at \$1 per annum by S. S. Wood & Co., Newburgh, New York.

What Dyspepsia may End In.

Indigestion is not dangerous, say the faculty .-Perhaps not in itself, while it remains mere indigestion; but look at the consequences to which it may lead, and often does lead when it becomes a chronic disease. A spark of fire is a small thing. A pressure of the foot will put it out: a breath will extinguish it. Yet it may fire a powder mill, or kindle a flame that will consume a city. In like manner indigestion tray produce gastritis, cancer of the stomach, congestion of the bowels, apoplexy, liver disease, and many other dangerous maladies. Is it not wise, then, to check it in the germ? Nothing is more clearly and indianutable established ing is more clearly and indisputable established than that Hostetter's Stomach Bitters will cradicate than that Hostetter's Stoinsch Bitters will eradicate dyspepsia in all its stages. The true policy, however, is to extinguish it in the first stages with this wholesome, powerful, and intallible tonic and alterative. It is easier to quench a spark than a flame, and it is easier to cure dispepsia when it is first developed, than when it has made headway by neglect, and become complicated with other allments. There is not the shadow of a doubt that the bitters are an directly an agonistic to dyspensia as watering. are as directly antagonistic to dyspepsia as water is to fire. There are thousands of cases on record proving this fact. The remedy is safe and agreeable. All the liquors of commerce prescribed as stimulants leave a sting behind. But the sting is taken out of the spiritout basis of this great remedy by vegetable medication and moreover the stimulants. ble medication, and, moreover, the stimulant thu medicated is of exceptional purity. Of all take as safeguards or remedies for fever and ague, bit lious remittents, and other epidemics, it is the only one that can uniformly be depended on.
